

Ekistic grid index

The articles in this issue are coded by the scale of settlements and an aspect of an element indicated in the ekistic grid.

The content of each article is classified within an ekistic grid as follows:

- The scale of the settlement(s) with which the article deals is selected from among the 15 ekistic units:

No.	Name	Population
1	Anthropos	1
2	Room	2
3	House	5
4	House group	40
5	Small neighborhood	250
6	Neighborhood	1,500
7	Small polis	10,000
8	Polis	75,000
9	Small metropolis	500,000
10	Metropolis	4 million
11	Small megalopolis	25 million
12	Megalopolis	150 million
13	Small eperopolis	1,000 million
14	Eperopolis	7,500 million
15	Ecumenopolis	50,000 million

- The subjects dealt with in each article are selected from among the subheads of the five ekistic elements. The position of a dot in any square of the grid indicates which of the four subheads is being referred to. If the article arrives at a synthesis of these elements, either in a physical plan or in ekistic theory, the dot is at the top or bottom of the square.

key to placement
of subheads

primary
emphasis

secondary
emphasis

The subheads of the elements are:

NATURE

1. Environmental Analysis
2. Resources Utilization
3. Land Use, Landscape
4. Recreation Areas

ANTHROPOS

1. Physiological Needs
2. Safety and Security
3. Affection, Belonging, Esteem
4. Self-actualization, Knowledge and Aesthetics

SOCIETY

1. Public Administration, Participation and Law
2. Social Relations, Population Trends, Cultural Patterns
3. Urban Systems and Urban Change
4. Economics

SHELLS

1. Housing
2. Service Facilities
3. Shops, Offices, Factories
4. Cultural and Educational Units

NETWORKS

1. Public Utility Systems
2. Transportation Systems
3. Personal and Mass Communication Systems
4. Computer and Information Technology

SYNTHESIS

1. Physical Planning
2. Ekistic Theory

Each article is described by keywords, which are also used in the *Ekistic Index*, and by abbreviations referring to their illustrative content.

Keyword letter code

- D = Diagrams
- I = Illustrations
- M = Maps
- R = References
- S = Statistics, Tables, Graphs
- X = Simulation, Mathematical Models, etc.

To the Reader

As is stated in the tables of contents (pages 2 and 3), the material used from the 2001 Meetings of the World Society for Ekistics, Berlin, 24-28 October, is classified as follows:

- I. Executive Council Meeting
- II. The C.A. Doxiadis Lecture
- III. Symposium: Defining Success of the City in the 21st Century

Part 1: Introduction

Part 2: Nature

Part 3: Anthropos

Part 4: Society

Part 5: Shells

Part 6: Networks

Part 7: Education and Research

Part 8: Synthesis

Part 9: Conclusions

IV. General Assembly

The present issue ends with Part 4 of the Symposium.

The remaining material is contained in the following triple issue of Ekistics, vol. 69, no. 415/416/417, July/August-September/October-November/December 2002.
